In these uncertain times it can be difficult to see the light and maintain positivity. The Little Things Art Prize was established in 2015 by local artist @marnierossartist with the goal to encourage shared reverence and celebration of the little things in life that make us feel good, bring joy and inspire feelings of gratitude. This now seems more important than ever! Togetherness and community are the 'soothing salve' where we find meaning and the courage to keep moving forward 🌊 Welcome to @littlethingsartprize Finalists exhibition 2020.
